Adobe Flex 2, 3 & 4, J2EE, BlazeDS and LiveCycle, PDF Generator, ActionScript 2 & 3, Cairngorm, Spring, Hibernate, Maven, AJAX, XML, PHP, Javascript, SQL, TCP/IP, IPSEC VPN, SIP,

EXPERIENCE

Flex Developer, Contractor for Hire

September 2008 - Present

Telecommute contractor working as a Flex Developer and system integrator for back-end systems. Deep integration work with J2EE platforms, and related data sources. Most projects in the realm of business intelligence and multi-systems dash boarding. Solutions deployed in US CENTCOM.

Flex Developer, Comsys Contractor for XM Satellite Radio

June 2008 - September 2008

Presentation layer Flex developer for XM's online marketing applications group. Developed a Flex GUI for xmradio.com/shop that handles all consumer direct sales for XM. Integration with Alfresco, Oracle Siebel, BEA WebLogic and a custom ASP .Net shopping cart. Video demo available.

Technical Lead & Flex Developer, IBM Contractor for Sprint Nextel

October 2007 - June 2008

Led a team of Java developers for an Adobe Flex based network planning application. Responsibilities included teaching Flex, architecting data structures and designing the UI. Implemented on a Websphere J2EE server using Cairngorm architecture. Video demo available.

Software Engineer, ADTRAN, Inc.

June 2005 - October 2007

Developed web interfaces for embedded networking devices. Responsibilities included user interface design, data architecting, and team design coordinations. Daily use of Flex, javascript, AJAX, CSS, TCL and C. Video demo of a VoIP quality monitoring Flex interface is available upon request.

Sole Proprietor, DreamingWell.com

December 2001 - Present

Provides web services to small businesses and local governments. Specialization in online auctions, customized shopping carts, invoicing, information management and dispersion solutions. All solutions include development and hosting services. Portfolio at <http://DreamingWell.com/portfolio>
